

CZECH FUNGI FEST

September 5-6, 2026

A festival for everyone who loves fungi

Czech Fungi Fest is an immersive festival celebrating the fascinating world of fungi. It creatively connects mushroom enthusiasts, scientists, artists, philanthropists, nature lovers, entrepreneurs, and the general public who share a passion for fungi, biodiversity, and nature conservation.

*The festival consists of several interconnected events, with the **main festival weekend taking place on 5–6 September 2026 at Kampus Hybernská in the heart of Prague**. Visitors can enjoy a traditional mushroom exhibition featuring fresh wild fungi, the opening of the **Mushrooms in Art exhibition**, mushroom photography, educational exhibitions focused on fungi and their natural habitats, and a small mushroom market offering fresh and dried mushrooms, mushroom-growing kits, baskets, outdoor equipment, clothing, books, and other products for mushroom enthusiasts.*

*The weekend also features workshops and creative activities for both children and adults, audiovisual performances, inspiring lectures, a mushroom library, the announcement of the **Most Beautiful BoletUS of the Czech Republic** competition and the **Czech Mushroom Forager Lady of the Year**, followed by live music and an afterparty. Altogether, it creates the perfect opportunity for the Czech and international mushroom community to meet in the centre of Prague.*

*As part of the festival, the **Circular HUB** will host a professional discussion panel dedicated to **mushrooms and psychedelics**, bringing together leading researchers and experts in the field. Families and teams can also take part in an orienteering-style mushroom adventure run through **Kundratice Forest**, while experienced mycologists will lead guided mushroom forays into four different fungal habitats. The dates of these excursions will be announced according to seasonal mushroom growth.*

This year, the festival will also participate in Prague's popular farmers' markets, where our partners will present mushrooms, mushroom products, cultivation supplies, and equipment for foragers. Visitors will also have the opportunity to join exclusive gourmet mushroom tasting events prepared by renowned chefs. As capacity is very limited, advance booking is recommended.

*The festival concludes with the traditional **Fly Amanita Ball** on **7 November 2026** at **Veleslavín Castle** in Prague 6. This unique networking gala combines elegance, creativity, and community into an unforgettable evening filled with inspiring people. Tickets are available through GoOut, and all guests are required to follow the signature **red-and-white (Amanita Design) creative dress code**.*

Welcome to Czech Fungi Fest 2026!
